ABOUT US

Established in the year 2006, at New Delhi, as a proprietorship company Revival Surgicals has been catering to the needs of the diverse medical fraternity as manufacturers and exporters of a varied range of stethoscopes and other medical equipments . We have recorded positive growth within a short duration. Our mentors' domain expertise and technical knowledge along with a dedicated support team of experienced technicians and engineers has enabled us to produce products that are advanced and reliable. Our range of stethoscopes particularly caters not only to the medical fraternity in India where we have a huge market share but also in USA where our products have been well recieved.

OUTGOAL AND VISION

Our vision is to provide quality stethoscopes globally to our clientele that are reliable and cost effective.

VALUES

We strive continuously to enhance our products to meet international standards and also ensure timely delivery of our products in domestic and overseas markets.

HEAR IT WITH CONFIDENCE

"Revival Surgicals strives to provide the best experience for the medical fraternity. Your ease of use and satisfaction is our topmost priority. Our Quality Standards, Engineering & Design will be continuously worked upon. Your feedback will enable us to improve the product and user experience."

Rakesh Kalia
Founder

TIPS

- The earbuds provided with your Revival stethoscope are sterilizable.
- Please remove the earbuds and wash them in hot soapy water to cleanse them.
- Your Revival stethoscope comes fitted with large size earbuds by default.
- If you like to opt for medium-sized ear buds please replace them with the medium-sized earbuds provided as a spare along with your purchase.

REVIVAL® SOUNDCRAFT® (CARDIOLOGY)

AVAILABLE IN 6 COLORS

BLACK | GREY | BURGUNDY | BLUE | RED | GREEN

Latex Free Tubing | Soft Ear Knobs | High Quality Stainless Steel | Flexible Tube | Dot Indicator

Revival® Soundcraft® Cardiology stainless-steel dual head stethoscope for cardiologists, pulmonologists, heart and lung specialists, cardiology and pulmonary medical students and nurses in ICU and emergency care with pressure sensitive tunable diaphragm for critical heart and lung care in challenging environments, with latex free tubing along with one pair of standard sized extra soft sealing ear knobs and one additional pair of large sized extra soft sealing ear knobs for a comfortable fit as per individual requirements.

Description: Revival® Soundcraft® Cardiology stethoscope is a versatile product designed specially for cardiology practitioners, cardiac surgeons, cardiac and pulmonary specialists keeping in mind their diverse needs to aid them in accurate diagnosis.

Design: Anatomically designed high-quality stainless-steel thicker binaural frame to minimize the interference of sound waves. Latex free lumen tubing with enhanced length for ease of use. Removable extra soft sealing ear knobs sterilizable with hot water or soap solution.

Dual Head stainless-steel chest piece: Dual head chest piece for listening and monitoring the intricate sounds from the cardiovascular system such as heartbeats, murmurs, valve activity and lung whispers. Non chill rim and Pressure sensitive tunable diaphragm with high acoustic sensitivity capable of detecting different sound frequencies. Turnable stainless steel stem provides better acoustic performance and enhances the product life more than aluminum stems. The stem comes along with a dot indicator showing the active side of the chest piece.

Ideal for: Revival® Soundcraft® cardiology stethoscope is specially designed for use in cardiac ICU, emergency departments, trauma units, critical care environments and other challenging conditions for cardiologists, cardiac surgeons, pulmonologists, and nurses.

Three-Year Warranty: Warranty on this product includes free replacement in caseof any defect in material/workmanship during this period and does not cover any kind of intentional or accidental damage.
